

Dear

As your trusted real estate advisor, I want to make sure that you are informed on the range of value of your real estate holdings, along with the current market conditions.

Enclosed is an Estimated Report for your area which you can use for financial planning purposes. It is also a good idea to review the value with your insurance agent to make sure you carry adequate homeowner insurance coverage on a yearly basis.

The report includes statistics on your area's history, market activity, and more, however it is not intended to take the place of a full "Real Estate Market Analysis" that we would prepare if you were planning to sell your home.

There are many factors that can change the value of your home, such as additional finished square footage, remodeling etc. If you have any questions, I would be happy to discuss them with you.

We appreciate the opportunity to share this with you. We're here to support your goals in any way we can and look forward to staying in touch.

Sincerely,
