BUILDING BRANDS & ACTIVATING
WOMEN TO STEP INTO OWNERSHIP,

I help activate women who are already expert led to begin their own personal online journey with powerful positioning.

LeadHer Online was built for women who know they are capable of more... but are tired of feeling stuck, stretched, or unclear on how to actually move forward.

This isn't about surface-level motivation or "just believe in yourself" advice.

Because most women don't have a knowledge problem.

They've built careers and are really good at them,

But when it comes to building something of their own... they fall back into overthinking, overworking, undercharging, or waiting for certainty and that right time.

Overview

One. The deep dive. We start with a proper look at everything you have done and everything you are doing now. Your career, your skills, the problems you have solved repeatedly, the things you know so well you have stopped noticing them. This is where most women discover they have been sitting on the asset the whole time.

Two. Positioning. We take what came out of that and turn it into something specific. Who you help, what you solve, and why you are the one to do it. Vague offers are the reason capable women stay invisible.

Three. Pricing and packaging. What you charge, how it is structured, and how to say the number without discounting it on the spot.

Four. The build. The practical setup. What you need, what you can ignore for now, and the systems that let this run alongside a full time job.

Five. Clients. Where they come from, how you reach them, and what to say. The part most programs leave you to work out alone.

You leave each session with the next moves in order, not a list of everything you could theoretically do.
