

Unlock Passive Income with a FREE Unity Node License!

Looking for a zero-cost entry into the \$2 trillion decentralized telecom market?

Now you can host a **Unity Node** on your smartphone with **no upfront investment**.

- **Zero Cost:** Get started with a free license; no purchase required.
- **True Passive Income:** The app runs in the background with minimal monitoring.
- **Revenue Share:** Keep **50% of all revenue** generated by your device, with the remaining 50% supporting the Unity Node Operator (UNO) infrastructure.
- **Real Utility:** Your phone performs automated background verifications (fraud detection and performance optimization) for global carriers.

Projected Earnings (50/50 Revenue Share)

The following estimations are based on current network performance and projected growth, adjusted for your **50% share** of the total revenue.

Per Device Earnings

Milestone	Total Network Revenue	Your 50% Share (Daily)	Your 50% Share (Annual)
Current Performance	\$0.50 / day	\$0.25	\$91.25
Mid-Term Growth	\$1.50 / day	\$0.75	\$273.75
Projected High	\$3.00 / day	\$1.50	\$547.50

Household Scaling: 3 & 5 Phone Estimations

Maximize your earnings by utilizing multiple devices within your household. Under the **50/50 share model**, here is what you can expect to earn:

3-Phone Household Setup

- **Current:** ~\$273.75 per year
- **Mid-Term Growth:** ~\$821.25 per year
- **Projected High:** ~\$1,642.50 per year

5-Phone Household Setup

- **Current:** ~\$456.25 per year
- **Mid-Term Growth:** ~\$1,368.75 per year
- **Projected High:** ~\$2,737.50 per year

Why Join the Unity Network?

The Unity business model is built on **real-world utility**, not speculation. Carriers pay for these verifications to prevent fraud and increase reliability. By choosing the free 50/50 license, you gain immediate access to this ecosystem with **zero financial risk**.
